

CUT LIST for HOW TO MAKE A SIX-PACK CARRIER

To build a carrier that measures 9 inches wide by 5 inches deep by 13 inches tall:

1x6 clear pine for the sides: two @ 13 inches, ripped to 5 inches wide

1x6 clear pine for the base: one @ 7 1/2 inches, ripped to 5 inches wide

1-inch oak dowel for the handle: one @ 9 inches

1/4-by-1 1/2-inch oak slats for the side rails: four @ 9 inches
